Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 2617.

Response to Arguments

1. Applicant's arguments filed 2/09/2007 have been fully considered but they are not persuasive.

Applicant argues that Examiner respectfully disagrees, and would like to direct Applicant's attention to the Remarks filed by Applicant on 8/22/2006; wherein the priority claim from the Israeli application was dropped. Since the priority claim was dropped, Kotzin was applied to the rejection. To further prosecution, Ludwig et al. is now applied.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2617

2. Claims 21-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Ludwig et al. (US 6697352; hereinafter Ludwig).

Regarding claim 21, Ludwig discloses in a cellular network system (Fig. 6: GSM), an interface unit comprising a first interface functionally connected with at least one management element of the cellular network (Fig. 6), a second interface functionally connected to the public internet and adapted to provide authorized entities (using authentication protocol: Col 6, line 46-50) connected to the Internet access to one or more cellular network services (Fig. 6; Col 2, line 61 – Col 3, line1-35).

Regarding claim 22, Ludwig discloses the interface according to claim 21, wherein said management unit is a base station controller (BSC: Fig. 6).

Regarding claim 23, Ludwig discloses the interface according to claim 21, wherein said management unit is a mobile switching service center (MSC: Fig. 6)

Regarding claim 24, Ludwig discloses the interface according to claim 21, wherein said management unit is a high level control (Fig. 7: HDLC; Col 3, lines 53-60).
